MRS. LINCOLN'S WARDROBE, AND HER APPEAL FOR AID.

We find in the New York *Herald*, of the 5th instant, some further particulars in relation to this subject:

THE BROKER ADVANCES MRS. L. MONEY.

About four days ago, Mrs. Lincoln, her son, Tad, and the negro attendant, arrived again in the city, and put up at the Brandeth House, the lady entering her name on the books as Mrs. Morris. She remained within doors, going to no place of amusement or public resort excepting once, when a gentleman having lent her his private carriage, she and her son and servant took a drive in the Park. At this time her wants becoming very pressing, she was obliged to send the following note to her broker:

September 31, 1867.

Mrs. L. will trouble Mr. Brady to advance her six hundred dollars, which she hopes soon to return.

Mr. Brady complied with her request, and received the following:

NEW YORK, October 1, 1867.

Received of William H. Brady six hundred dollars. MRS. A. LINCOLN.

SURVEYOR WAKEMAN AND MRS. LINCOLN.

Gentlemen interested in the widow of the late President called at various times on some of the Republican office-holders, who are partly indebted to that lady for their positions, but all to no purpose. Among others, in compliance with the following letter, Surveyor Wakeman was waited on, and promised two or three times to accede to Mrs. Lincoln's request. Up to the present, it is said, he has not been heard from:

CHICAGO, September 14, 1867.

W. H. Brady, Esq—My Dear Sir: Please call and see Hon. Abram Wakeman. He was largely indebted to me for obtaining the lucrative office which he has held for several years, and from which he has amassed a very large fortune. He will assist me in my painful and humiliating situation, scarcely removed from want. He would scarcely hesitate to return, in a small manner, the many favors my husband and myself always showered upon him. Mr. Wakeman many times excited my sympathies in his urgent appeals for office, as well for himself as others. Therefore he will only be too happy to relieve me by purchasing one or more of the articles you will please place before him. Very truly,

MRS. A. LINCOLN.

DESCRIPTION OF THE ARTICLES FOR SALE.

As one enters the room where these articles are exhibited, the first that attracts the eye are five elegant camel's hair shawls hanging carelessly on the back of a chair. They are of the finest texture, and were considered the most expensive in the market at the time of their purchase, the largest costing $1,600 in gold, and the others from $525 to $500 each. Two white Paisley shawls lie on the lounge. They are of remarkable fineness and delicate finish, and are valued at $300 each. On the showcase lies an exquisite and magnificent white point lace shawl which cost $1,000, and near by are five of the same, averaging from $200 to $400 each. Seven heavy double point lace shawls included in the list are worth $4,500, and a parasol covered with the richest of thread lace, is valued at $200. Conspicuous among the articles is a Russian sable cape of the finest and softest fur. It is very large, and cost $4,500 in gold, and is accompanied by a sable boa valued accordingly. Thrown upon the furs is a point lace handkerchief of the most delicate texture, worth $100, and lying in a pile upon a long table are twenty-three dresses, whose estimated value is $10,000. Two elaborately wrought bracelets, of the finest gold and uniquely made, are valued at $800, and in the showcase are displayed some of the richest gems in the world. An exquisite set of diamonds, comprising a pin and earrings, the stones of rare brilliancy and large size, are exposed for sale. They are valued at $1,500. A single solitaire diamond ring, of great brilliancy, is valued at 1,500, and two smaller ones cost $350 and $500 respectively. A set of solitaire diamond ear-rings is valued at $300, and alongside are a watch and chain worth $1,000. It would be too difficult to describe the various trinkets and other articles offered for sale, the value of the whole of which is estimated at close on $30,000 in gold. Such is the wardrobe and personal paraphernalia of one who but lately occupied so important a position in society—the wife of a man whose name was known throughout the civilized world, and whose untimely death called for the sympathy of almost all mankind.

GENERAL BEAUREGARD writes to a Baltimore paper that "he is an outlaw in his own native country." This is equal to the man who said he was an Irishman, though he wasn't born in his own native land.

THE TWO ALPINE RAILWAYS.

(From the New York Evening *Post*.)

We have already given an account of the opening of the railway over Mount Cenis. The other line which tunnels the mountain is still in progress. The first connects Germany and Italy. The line through the Brenner Pass runs from Innsprick, in Austrian Tyrol, to Botzen, in the valley of the Adige, and is a permanent work, commenced years ago by the Austrian Government in order to bring the Quadrilateral into immediate military communication with Vienna. It will now be used for facilitating commercial union. The line over Mount Cenis is intended as a temporary expedient until the seven mile tunnel through Mount Cenis is completed. It is probable, however, that Mr. Fell's line will be maintained even after the Victor Emmanuel Railway is completed. Tourists, at all events, would prefer to the half-hour's darkness of the tunnel the glorious view which is to be had from the top of Mount Cenis especially towards Susa.

The London *Examiner* says:

The two Alpine railways, the one through and the other over Mount Cenis, are both bold engineering projects, but the last named exhibits, if it may be said without offence, the smartest jockey craft. The first started project for connecting France and Italy by railway was by the route which includes a tunnel of about seven and a half miles long through Mount Cenis, with nearly 35 miles of very difficult approach to the tunnel, 12 miles from St. Michael to Mondane on the French, and 22½ miles from Susa to Bardeneche on the Italian side. The works for this important communication are of almost, if not quite, unprecedented magnitude and costliness, and were from the commencement expected to occupy the labors of a considerable series of years. They were commenced, backed by the imperial and royal resources of France and Italy in 1857. Of the forty-two miles of this mountain railway, only about five miles of tunnel have been in part made up to this time; and this portion, being driven from the openings on each side of the mountain, is, of course, the easiest of execution.

On the most favorable estimate, the next decade will be far advanced before the tunnel line can be opened. A company of Englishmen stepped in after these works were commenced and persuaded the imperial and royal promoters that they could give them the advantages of railway communication for a number of years before the route could be ready. This they proposed to accomplish by going over instead of through the mountain, and almost all that they needed in the way of concession was the use, to a certain extent, of the government roads through the pass, facilities which they duly obtained, and now their line, only about six and a half miles longer than the "direct" tunnel line, is practically finished, and was inspected on Monday last by Captain Tyler, R. E.

Official intervention is called for, inasmuch as the Mount Cenis Railway will form part of the route by which the eastern mails will in future be sent, at a saving of about forty hours. The experimental trip, which was most successful, was over the entire length of the line from St. Michel to Susa, forty-eight miles. The serious injury caused by the inundations of last autumn to the government road, upon which the line is for the greater part laid, is now completely repaired, and the works throughout give the best promise of stability. Between St. Michel on the French, and Susa on the Italian side, the village of Lanslebourg is perched about half way. St. Michel is 2,473 feet above the sea, Lanslebourg is 2,099 feet higher, and the summit, about six miles from Lanslebourg, and between it and Susa, is 6,332 feet above the sea. On this section, 2,240 feet, is ascended by an average gradient of one in fourteen. From the summit to Susa, fourteen miles, the average gradient is one in seventeen, but three miles being comparatively level the prevailing gradient on this length is really one in twelve. The Fell system of traction adopted upon the line, was tried on this occasion upon what may be pronounced an adequate scale, and gave conclusive evidence of its safety and efficiency.

The existing traffic across the Mont Cenis is very great, and may be expected to be largely increased on and after the opening of the line on the 1st of October next. The average passengers both ways daily by road is about 220, with about 120 tons of goods daily. The number of horses engaged in the conveyance of passengers and goods across Mont Cenis is about 1,200, which allowing ten miles a day to each horse, gives a daily average of abont 12,000 miles travcled. In the event of the system of traction proving indisputably safe, as there is the best reason to believe it will, there can be little doubt that this overground line will prove the preferred permanent route, as there are few travelers who will not prefer a slight detour, an hour or two's detention and a pretty stiff gradient, to a seven and a half mile tunnel.

AN OLD VOTER.—Capt. David Hinkley of Livermore, Androscoggin (lat: Oxford) county, Maine, rode six miles on Monday, the 9th day of this month, and voted for Gen. Chamberlain for Goverror. Captain Hinkley was born in 1765, and is, therefore, "one hundred and two years of age." He voted for General Washington for the first President of the United States, and has voted for President at every election since that time. We presume there is not another such instance on record. He hopes, he says, to live to vote for General Grant for President in 1868, and he will then have voted for him who founded, him who liberated, and him who saved the Republic—Washington, Lincoln, and U. S. Grant.

Copy of the Report of the Committee of Awards a the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST Premium! Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets,

TO 108 MONTGOMERY STREET, Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

A CARD FROM THE

AMERICAN WATCH COMPANY,

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this; European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or braud that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plaingold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

DUTCH FLAT ENQUIRER.

WEDNESDAY, OCT. 30, 1867.

WHY WE WERE DEFEATED.

A good deal is being said by the press of this State just now as to the causes which led to the defeat of the Union party at the September election as well as the late Judicial election, and as might be expected many and various are the causes attributed to it. Some say that the news of the Eastern elections in Pennsylvania and Ohio did more than anything else to shape the result in this State; this probably might have been the cause if we were willing to predicate the assertion upon the hypothesis that the people are not in the habit of expressing their own ideas of men and measures but prefer the expressed will of their brethren at the East. This, we hardly think our people will acknowledge, and we risk but little in giving our opinion in opposition to it. Others account for the late defeat of the Union party in a much more reasonable and to our thinking, more sensible manner, the Shasta *Courier* of the 26th in speaking of this matter says that at the nomination of Mr. Gorham—who relied principally upon his genius and intelligence—there were many in the Union party who affiliated with it through sordid, selfish motives; these men knowing that they had nothing to expect if Mr. Gorham was elected, did everything in their power to defeat the nomination. Certain papers, that had before stood well with the party, with no reason save that of personal spite and pique that their favorites were not successful, came to the rescue of the dissatisfied, and widened the breach, causing many well meaning men to forsake the party, and contribute to the success of their enemies by either joining them or refraining from assisting their old friends; these, and many more causes though small in each locality, contributed to swell the numbers greatly in the aggregate. That what is termed the "Independent" press contributed solely to the defeat of our Gubernatorial candidate we emphatically deny, but that they aided materially to that result we admit. That the "independents" were subsidized by the opposition we believe, and recent developments since the September election rather strengthen us in our belief. That Mr. Bidwell would have been elected if nominated we believe only so far as the proviso may go in the action of the Convention in presenting other names on the ticket that would have been satisfactory to those who afterwards opposed the ticket. *They* were bound to be secured in the loaves and fishes or they would give any nomination the go-by, and raise the howl of trickery and corruption in order to secure its defeat. And now to continue blinding the eyes of Union men, at home and abroad, to their real motives, they keep up the cry of corruption, trickery and fraud. Writhing under the lash of many thongs continually laid upon their excoriated backs they lustily reiterate their old lies. Finding in their own bosoms none but base motives, and addicted, as everybody knows, to dirty tricks and frauds, they think all men as bad as themselves, and charge men who supported the ticket with being mercenary guerrillas. They are now making the same charges against the party in Pennsylvania, and accounting for the defeat of Williams and election of Sharswood upon the same grounds. They have not yet taken up Ohio, but doubtless soon will, when we shall be treated to another dose of corruption, if there is an independent press to invent it. If we can believe them the Union party has not yet been sufficiently purified by defeat, so it adds every day to the vigor of its spite, to have it defeated again next year. If it cannot name the Presidential electors it will fight the ticket again, probably. What is the loss of a President to a party which has a dictator in the Independent press? If there is a possible chance for a split, the *Union* is nursing its might to rend and tear away again at the next State Convention. Having already declared that Grant has no competitor in the party it will assume that nine-tenths of the Union men in the State are for him. And if any man favoring Sheridan "or any other man," should happen to get nominated as delegate to the National Convention there would be fraud and corruption again. So, also, if any elector with brains and heart is named. The more such presses pretend to support a party or a measure the less likely is it to succeed. This is probably the cause of the defeat of Currey and Swett.

ACCIDENT.—On Friday last, W. L. Knight, who is engaged as brakesman on one of the freight trains of the Central Pacific Railroad met with quite a serious accident. He was stepping from one box-car to another after detaching them, and fell between, breaking his leg. He was taken to Sacramento for medical assistance.

CENTRAL PACIFIC RAILROAD.—The following is from the Virginia *Trespass* of the 26th instant:

The understanding prevails here at present that the Central Pacific Railroad Company do not intend working through any further this Winter than Cisco. We have believed that the road would be working before Winter set in to some point thirty or forty miles this side of the summit. A considerable amount of track is laid this side—many miles of it; and the summit tunnel is almost ready to receive track. It is a matter of great importance to people this side of the mountains, and business men would like to know how far freight must be carried by teams. If freight must be stacked up at Cisco to await teams when the snow is deep and the roads bad, as last Winter, traders will need to make arrangements of some sort to get such stock as must be had at once, and have it freighted over while the roads are good. Many are not in circumstances to get a full stock for Winter, and it would be a great advantage to all business men if the Central Pacific Railroad Company is to have its depot for the Winter this side of the summit. Some time ago we had notice that the Company was ready to lay rail on thirty-five miles of road this side of Cisco. How is it?

We do not speak from authority, but the "understanding prevails here" that the Company will not move their depot from Cisco this Winter, as doing so would entail great and needless expense upon them.—Track laid on newly graded roads in the mountains has been found to be a very expensive as well as uncertain business. We understand from parties supposed to know, that the Company intend allowing the elements to settle the road as much as possible this Winter, and commence laying the track early in the Spring, and go ahead with it. As to the Virginia City traders not being able to lay in their Winter's supplies, is a matter that concerns themselves alone, and with which we suppose the Railroad Company have nothing to do. They had no railroad last Winter, yet they progressed reasonably well.

The Republicans, it will be observed, number more than two-thirds of each House, and on their wisdom, promptness and sagacity, under present reverses, hang the future hopes and existence of the party.

COLLISION.—A collision took place between two freight trains on the railroad yesterday at or near Clipper Gap. It appears that the up-train was an extra, and through some mistake in "flagging" the collision occurred. The fireman on the up-train is said to be seriously if not mortally injured, while some three or four received slight bruises. The locomotive coming up was entirely disabled, but that going down was scarcely damaged. This is the first collision that has occurred on the road, and this, we understand, was owing entirely to the negligent or awkward manner of displaying signal flags. The wounded were taken to Sacramento by the down-train.

JACK DUFFEY'S BALL.—Mr. Duffey, of Lowell Hill, will give a social ball on Friday evening next, to which his friends are invited. Mr. D. but recently met with a very severe accident in the breaking of his leg by a fall, and was otherwise injured, which, added to injuries of former times, resulting in the amputation of one of his legs, makes every assistance his friends can render very acceptable. Mr. Duffey has a wife and interesting family, who are solely dependent upon his exertions.

IN PRESS.—Bancroft & Co. have in press a new and entirely original work on the history, scenery, climate, mineral resources, agricultural products, industrial progress, commercial advantages, and future prospects of our State, to be entitled: The Natural Wealth of California, containing graphic descriptions of the mountains, groves, and lakes of the Golden State, and of its mines, mills, and manufacturies, its farms and fisheries, its wine, wool, cotton, flax, and tobacco culture, with accurate statistics of its agricultural, mineral, and manufacturing products, complete to latest dates. It will soon be issued, and will be the most valuable work ever published on this coast.

THE Calaveras *Chronicle* entered upon its sixteenth volume on Saturday last. Success to it.

WHO VOTE.—As the suffrage question has entered largely into the late canvass, the Democrats asserting that it was upon it that the tide turned in their favor, and as the subject still agitates the mind of the people, we have taken the trouble to compile the following in order to show how the various States now stand on the portentous issue:

Maine.—"Every male citizen."
New Hampshire.—"Every male inhabitant."
Vermont.—"Every man."
Massachusetts.—"Every male citizen."
Rhode Island.—"Every male citizen."
Connecticut.—"Every white male citizen."
Indiana.— " " " "
Illinois.— " " " "
Missouri.— " " " "
Iowa.— " " " "
New Jersey.— " " " "
Ohio.— " " " "
California.— " " " "
Oregon.— " " " "
Nevada.— " " " "
West Virginia " " " "
Colorado.— " " " "
New York.—"Every male citizen," but colored men are required to own $250, taxable property.
Pennsylvania.—"Every white freeman."
Wisconsin.—"Every male person."
Minnesota.—"Every male person."
Kansas.—"Every white male adult."
Delaware.—"Every free white male citizen."
Maryland.—"Every free white male citizen."
Tennessee.—"Every free white man," formerly, but now negroes vote.

In those States which were engaged in rebellion, and which are governed by the Reconstruction Laws, negroes are allowed to vote and hold office.

A BOWL OF PUNCH.—In the annals of drinking nothing can exceed a remarkable bowl of punch that was made in England in 1664. It was made in a fountain, in a garden, in the middle of four walks, covered overhead with orange and lemon trees, and in every walk was a table, the whole length of it covered with cold collations, etc: In the fountain were the following ingredients: Four hogsheads of brandy, twnty-five thousand lemons, twenty gallons of lime juice, one thousand three hundred weight of fine white Lisbon sugar, thirty-one pounds grated nutmegs, three hundred toasted biscuits, and one pipe of dry mountain Malaga. Over the fountain was a large canopy to keep off the rain, and there was built on purpose a little boat, wherein was a boy, who rowed round the fountain and filled the cups of the company, and in all probability more than six thousand men drank thereof.

THE September internal revenue assessments in the First California District amount to $349,859 18.

CHOLERA !

MR. PERRY DAVIS:—Sir: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen you a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœ, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from an attack of the Sick Headache, by using two teaspoonsful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Traveling amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily pre-disposed to dyssentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or, at the most half a day. I have heard of many cases of Dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolited testimonial in its favor.

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to a persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

DURCH FLAT ENQUIRER.

BEING REMOVED.—The old buildings recently bought by the town are down and are being removed as rapidly as possible, which, when done, will make the street at the corner sufficiently wide for all practical purposes. Mr. Halsey is only waiting until he can employ carpenters, to build a new blacksmith and wheelwright shop, and we hear that Mr. Morris intends, as soon as he can get carpenters, to raise his livery stable to the required grade, when the work of making the grade will be done. All of which will greatly enhance the property on Sacramento street as well as improve the appearance of the lower portion of the town.

SCARCITY OF CARPENTERS.—During the past three or four days we have heard many complaints of the scarcity of carpenters in town; those who are here are all employed and there is sufficient work not contracted for to furnish profitable employment for many more. Now is the time for idle mechanics to reap a harvest. Come on, all who are needy and want work, the harvest is abundant, and the chances for a raise the very best.

AN EDITOR'S STOCK IN TRADE.—The editor of the Idaho *Statesman* has been luxuriating on the good things in San Francisco, and during his absence from his post it appears that the boys have been taking an inventory of his effects, with the following result:

Life of John Bunyan; Impending Crisis, Life of Fred Duglass; Watt's Hymns; Life of Horace Greeley; Abott's History of the Civil War; Petroleum V. Nasby's book; Uncle Tom's Cabin; Episcopal book of prayer; Dr. Livington's Africa; Memoirs of a Country Editor; The woman in white; The Pirate's Own; The Abiary; Mrs. Waite's book of Mormonism; Chinook dictionary; Work on Obstetrics; The Vetrinary Surgeon; How to Cure Corns; The Irrepressible Conflict; Courtship Made Easy; Dream Book; Legerdemain book; Grant and his Generals; Gambling Exposed; One Thousand Valuable Recipes; and a lot of patent office reports and Sunday school tracts.

COUNTERFEITS.—The Marysville *Appeal* is cautioning the people against counterfeit half dollars and says:

The public are warned to keep a sharp look-out for bogus half dollars, bearing the counterfeit mint mark of San Francisco, which are now in circulation. The pieces bear date 1860 and 1863. They are admirable counterfeits.

The caution is equally applicable to this locrlity. There is also a counter feit two and a half piece in circulation well calculrted to deceive. Look-out for them! *Record*

Leave us alone with our Fitz, and we'll let you Swett.—*San Andreas Register.*

Men holding your political principles wanted to be "let alone" six years ago; the more respectable portion, however, were hung, or ought to be.

THE *Union* says two more new locomotives have been placed upon the track of the Pacific Railroad within the past three days. Their names are the "Montana" and "Gold Run." Both are large and powerful engines. The "Gold Run" is the twenty-eighth locomotive now in the service of the company on this road.

The San Andreas *Register* says that the town has been exceedingly lively during the past week. The Democrats there have been kept moving by—fleas.

THE CHICAGO PAPERS ON THE SALE OF MRS. LINCOLN'S EFFECTS.

The Chicago Evening Post of October 7th says:

The question so unpleasantly opened by Mrs. Lincoln's recent action is a very simple one indeed. What Mrs. Lincoln needs, what Mrs. Lincoln claims, what Mrs. Lincoln thinks about the war and the Republican party, what conceptions she has of the obligations which individual politicians bearing that name are under to her personally—all this is entirely apart from the question. The affair concerns principles of simple justice as between the Government and Mrs. Lincoln.

After serving one term with distinguished patriotism and prudence, Mr. Lincoln came to the close of his period in the very midst of the critical stage of the war and of the epoch which it signalized. The people deemed it necessary that he should remain President until the "high argument" was decided, and to this desire Mr. Lincoln yielded, finding also in a reelection the gratification of a very natural desire to, as he expressed it, see the thing through. In the first year of his new term he was stricken down: but if the assassin had not hastened his death, it would undoubtedly have been premature under the weight of solicitude and labor incessantly imposed upon him.

The fact is, that abandoning a pursuit in which he was on the road both to pecuniary and professional success, he gave all his powers of heart and head and hand to his country—nay, gave life itself. The fact is, that amid patriotic engrossments he found absolutely no time or energy for personal aggrandizements, and premature and sudden death left his family with only such means of subsistence (in the main) as the nation should see fit to provide.

In this view of the case, all that Mr. Lincoln would have earned as President, had he not sacrificed his life to his country, is due to his estate. This is not generosity; it is justice. If not imposed by the letter of the law, it is enjoined by the spirit of equity which should give life to the law.

From this point of view, we commend the manner in which the Chicago *Tribune* has commented on the subject, and we "trust that the Illinois delegation, irrespective of party, at the ensuing session of Congress, will insist upon an appropriation of the residue of the salary which President Lincoln would have received had he lived out his term.

The *Tribune* refers to the subject of Mrs. Lincoln's pecuniary embarrassment in an excellent spirit. In regard to the knowledge possessed by citizens of her pecuniary condition it says:

Our citizens knew that she resided in Chicago, but she was never seen, and her pecuniary circumstances were wholly unknown except by vague rumor; and if she mentioned it to any one it was under the injunction or secrecy, and no public use could be made of the information.

But now that the seal is broken and the injunction of secrecy removed there will be no excuse for non-action or neglect. The widow of President Lincoln must have a competency.

We trust that the Illinois delgeation, irrespective of party, at the ensuing session of Congress, will insist upon an appropriation of the residue of the salary which President Lincoln would have received had he lived out his term. And, in the meantime the friends and admirers of Mr. Lincoln, and those who received favors at his hands, can testify to their respect for his memory and appreciation of the benefits he conferred upon them by making up purses of greenbacks and forwarding them to the widow without delay.

The *Times* leads off with a column on Radicalism and Mrs. Lincoln, in the course of which it says:

The only light in which this affair should be examined is with reference to the claims of Mrs. Lincoln upon the country, and with further reference to the character of the party of which her husband was a member. We are of the opinion that history may be vainly challenged to produce a case in which there can be found an equal amount of meanness and ingratitude.

And finally:

Such is Radicalism—a fawning slave to power, but infinitely insolent and intolerant to weakness. The best thing that it can now do is to buy up from Mrs. Lincoln at half-price, and to preserve her from absolute want, the laces and *bijouterie* which it once gave to purchase her favor.

Upon the same subject the *Republican* says:

Now that the subject has been brought thus prominently before the public in a manner scarcely to be commended on the score of good taste, we hope that it will not be permitted to sleep without a statement of facts from some authentic source, or a thorough investigation. Since the subject has been made matter of newspaper comment, we are guilty of no indelicacy in saying that the well-founded impression with those best acquainted with Mr. Lincoln's affairs is, that he left his family, though not wealthy, in at least comfortable circumstances. This much is due to a country which reveres his memory.

A YOUNG married lady of New York, who can boast of a fair amount or personal charms, was with her mother in an Eighth avenue car the other day. In rearranging some portion of her toilet, a pin was needed, when an affable specimen of the genus homo handed her the article she craved. Both ladies thanked him. Imagine the amazement of both to read in the paper the next day: "will the young lady who borrowed a pin on the car yesterday, meet her adored admirer to-morrow at ——, or send a note to H.," etc. The lady's husband accompanied her to the place of rendezvous, and politely returned the pin his wife had borrowed.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, sex, etc.
